EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was obtained in a telephone message with Mr. Hans-Peter G. Hoffman and Mr. Martin B. Wachs on May 23, 2009.

The application has been amended as follows:

In the claims

In claim 36, last line, change "surfacts" to -- surfactants --.

In claim 40, line 3, delete "an".

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The above changes do not affect the scope of the claims. They only serve to correct obvious typographical errors.

None of the prior art references teaches or suggests the presently claimed metal-treating, aqueous composition with one of the treatment agents claimed, along with the nonionic, anionic, and zwitterionic surfactants claimed. EP 492,487 teaches a metal treating composition with nonionic or anionic surfactants but also teaches that cationic

Art Unit: 1796

surfactants are unsuitable. Those teachings do not suggest the presence of a zwitterionic surfactant. Other than through impermissible hindsight, no basis is seen for combining the teachings of several references to arrive at the presently claimed composition.

Claim 44, lines 3 and 4, provides "a solid polishing medium which may be precipitated chalk, infusorial earth, silica or γ -alumina." The clear meaning of that language is that the medium optionally comprises "precipitated chalk, infusorial earth, silica or γ -alumina."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
